Mr. Neal Brown, Esq.  
Waranch & Brown, LLC  
1301 York Road, Suite 300  
Lutherville, MD 21093

Dear Mr. Brown,

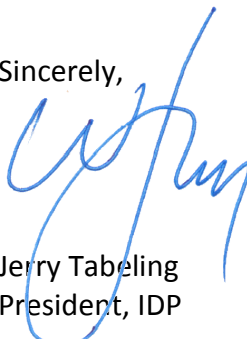

IDP recently completed a comprehensive security review of Waranch & Brown's information security policies and information systems. As part of our review, we assessed the level of risk posed by various threat agents, as well as vulnerabilities an attacker could leverage to exploit and breach your information systems and the probability a breach would be successful.

Waranch & Brown has a low level of risk associated with its existing information systems.

During our review of Waranch & Brown's security policy, and onsite observations and interviews with principles of the firm we noted that processes and controls designed to mitigate risk and protect corporate and client information are well organized and deployed.

IDP recommends that annual security assessments continue to be part of Waranch & Brown's commitment to maintaining secure information systems.

Sincerely,

Jerry Tabeling  
President, IDP
